### 📁 PROJECTS

#### Full-Stack Projects

##### College Library System

- **Tech Stack:** Node.js, Express.js, MongoDB
- Developed a library management system where semesters are added, and each semester includes subjects with associated notes.
- Implemented backend APIs to manage subjects and notes for each semester.

##### Social Media App

- **Tech Stack:** Node.js, Express.js, MongoDB
- Built a social media platform with user authentication, post creation, and saving features.
- Added a search profile feature and functionality for users to manage and interact with posts.

#### Frontend Projects

##### E-commerce Website

- Developed a responsive, mobile-friendly e-commerce website with a user-friendly layout.

##### Travel Booking Website

- Built a fully responsive hotel booking website using Bootstrap with an intuitive interface.

##### Magma Website Clone

- Cloned the Magma website with a responsive design and GSAP animations for dynamic user interaction.

### 🧠 SKILLS

#### Frontend Development

- HTML, CSS, JavaScript, Bootstrap, EJS

#### Backend Development

- Node.js, Express.js

#### Database Management

- MongoDB

#### Version Control

- Git, GitHub

#### Other Tools & Technologies

- Passport.js, Multer

#### Currently Learning

- React.js

## PROFESSIONAL EXPERIENCE

### Full-Stack Developer (personal project)

- **College Library Management**

**System:** Developed a system with semester-wise management for subject notes using Node.js, Express.js, and MongoDB.

- **Social Media Application:** Built a platform with features like user authentication, profile creation, and post creation using Node.js, Express.js, and Passport.js and this is fully responsive for all device with using bootstrap

### Frontend Developer (personal project)

- **Ear-Bude Website:** Created a product showcase website with interactive features.
- **Travel Booking Website:** Developed a responsive booking platform with Bootstrap, html ,css and javascript

## INTERESTS

### Coding & Web Development

Passionate about building web applications and exploring new technologies.

### Tech Communities & meetups

Interested in attending hackathons and tech meetups to network and learn from other developers.

### Building Personal Projects

Enjoy creating and experimenting with personal projects to apply new skills and expand knowledge.

## EDUCATION
